KIT CONTENTS

- 1 (one) lighted tag frame
- 4 (four) mounting screws
- 4 (four) nylock nuts
- 2 (two) screw wire connectors
- 1 Instructions

TOOLS REQUIRED

- 5/64" allen wrench for mounting screws
- 9/32" wrench for mounting nuts
- Wiring cutters/strippers to prepare wiring
- Optional tape heat shrink tubing to secure wires
- Optional snips to notch the license plate.

INSTALLATION

1. Your tag may need to be notched to allow the wires for the light to clear the tag.
2. If your tag frame wires will be routed through any holes, please ensure that the wires are protected by heat shrink tubing or hole gromets to protect the wires.
3. Connect the black wire to the black lead from your existing wiring or to a good ground source.
4. Connect the white wire to the 12 VDC fused running light source from your existing plate illumination light.
5. Install the tag frame using the mounting hardware included with the tag frame.
6. Reconnect main power fuse and ensure proper operation of the tag frame light.
7. Route and secure your tag frame wiring to ensure that it does not contact any moving parts of the vehicle.

NOTE

Avoid the use of pressure washers, harsh chemicals or abrasive cleaners as they may damage the finish or wires of your tag frame.

LIMITED WARRANTY

Your Cadence Motorsports tag frame is guaranteed to the original purchaser to be free of manufacturing defects in materials and workmanship for a period of twelve (12) months from the date of purchase. If your tag frame fails to conform to these conditions, it will be repaired or replaced at Cadence Motorsports' option if the frame is returned to us within the 12-month warranty period or within 10 days thereafter.

In the event warranty service is required, the original purchaser must email Cadence Motorsports immediately with a detailed description of the problem. Some problems can be rectified by email and require no further course of action.

If your Cadence Motorsports tag frame is suspected of being defective, it must not be replaced by a dealer without prior authorization from Cadence Motorsports. If it is deemed necessary for Cadence Motorsports to make an evaluation to determine whether the tag frame is defective, a return authorization number must be obtained from Cadence Motorsports prior to returning the tag frame to Cadence Motorsports. The tag frame must be packaged properly to ensure no further damage and returned to Cadence Motorsports with a copy of the original invoice or purchase receipt and a detailed letter outlining the nature of the defect, how the part was used and the circumstances at the time of failure. Customer is responsible for all return shipping costs. Repair, replacement, or refund will be granted only after an evaluation has been made by Cadence Motorsports.

Cadence Motorsports shall have no obligation if a Cadence Motorsports part becomes defective in whole or in part as the result of improper installation, improper care or maintenance, improper use, abnormal operation, modification, or any other misuse or mistreatment of the Cadence Motorsports part.

Cadence Motorsports shall not be liable for any consequential or incidental damages resulting from the failure of a Cadence Motorsports part, the breach of any warranties, the failure to deliver, delay in delivery, delivery in non-conforming condition, or for any other breach of contract or duty between Cadence Motorsports and a customer.
